Life Academy - District

Vision

The vision of LIFE3 Academy is to create the next generation of civically responsible, global leaders through the execution of a culturally relevant, holistic educational program. We believe that all students deserve a learning environment that embraces their whole being.

Mission

Our mission is to prepare all students, grades K-8, for a successful future in college, careers, and/or entrepreneurial endeavors. Through self-efficacy and student empowerment, LIFE helps students achieve mastery of high academic standards and lifelong ambitions.

Beliefs

All students enter school with a wealth of Knowledge. All students' academic, physical, social and emotional needs must be met to increase academic performance. Students must have access to local and national resources in a variety of experiences in order to be competent and competitive.

Instruction
